I don't do much.

# Baecon

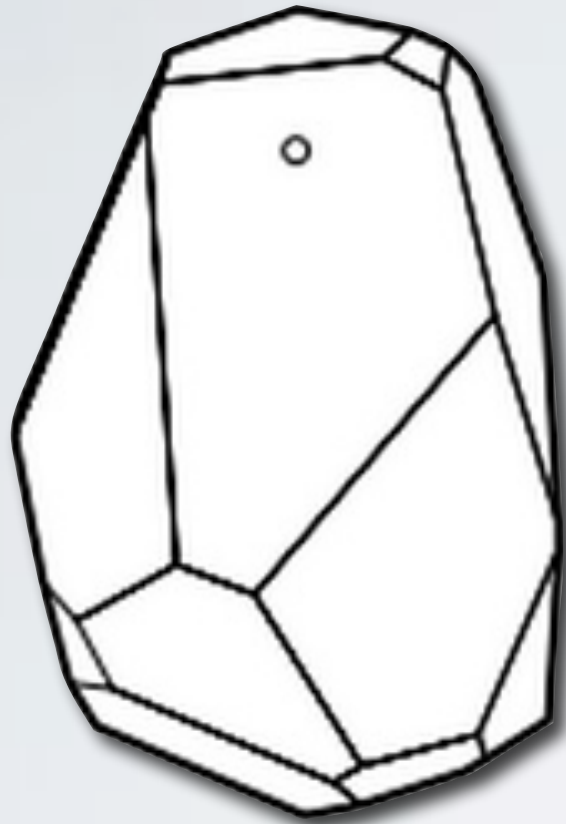

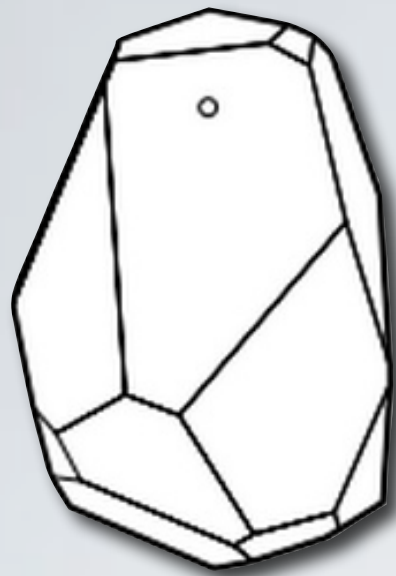

Bringing virtual chat rooms  
back to the physical world!

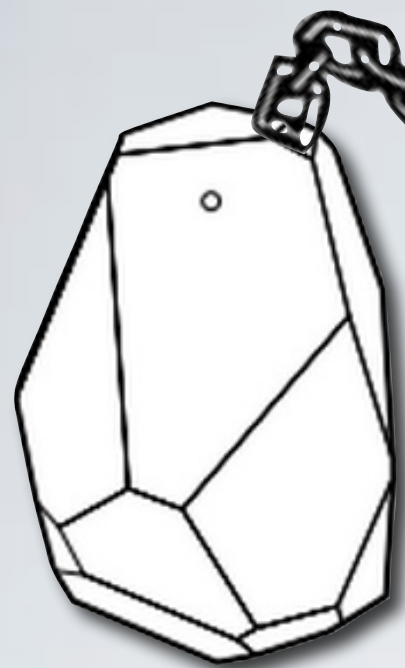

One baecon,  
one chat room.

Being there  
is enough.

Access restricted by the  
**physical presence**  
around that chat room.

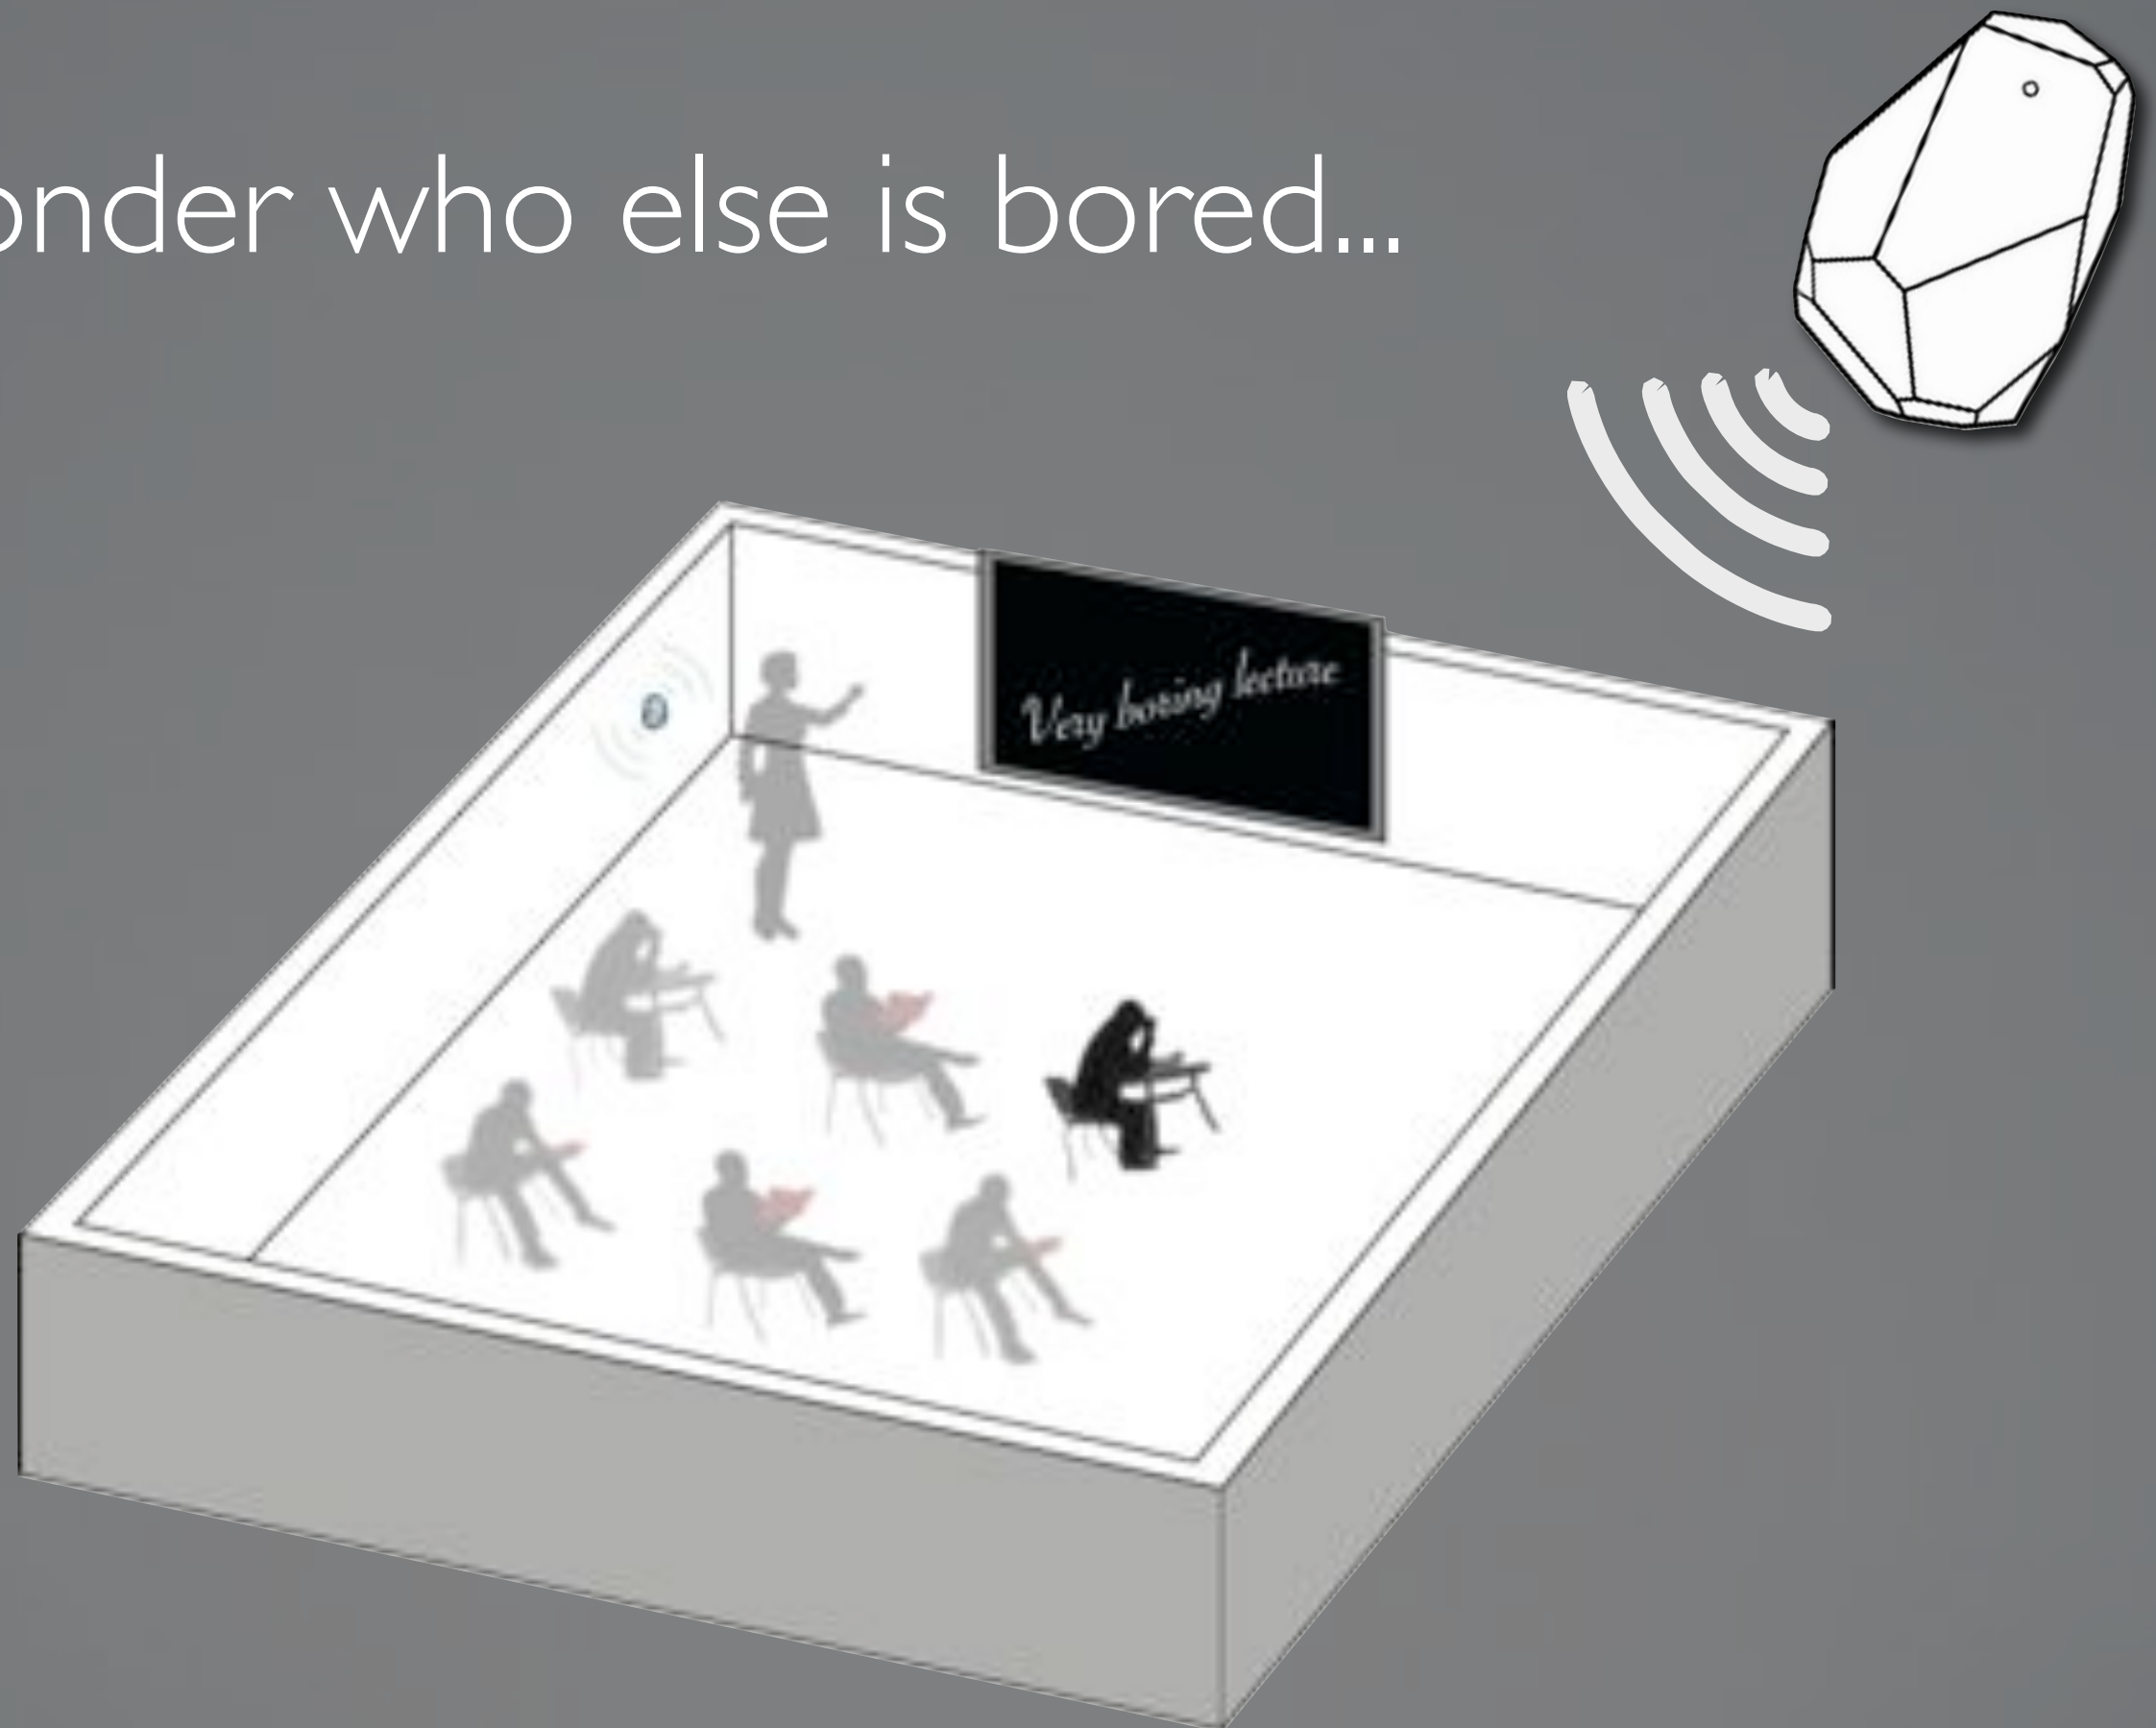

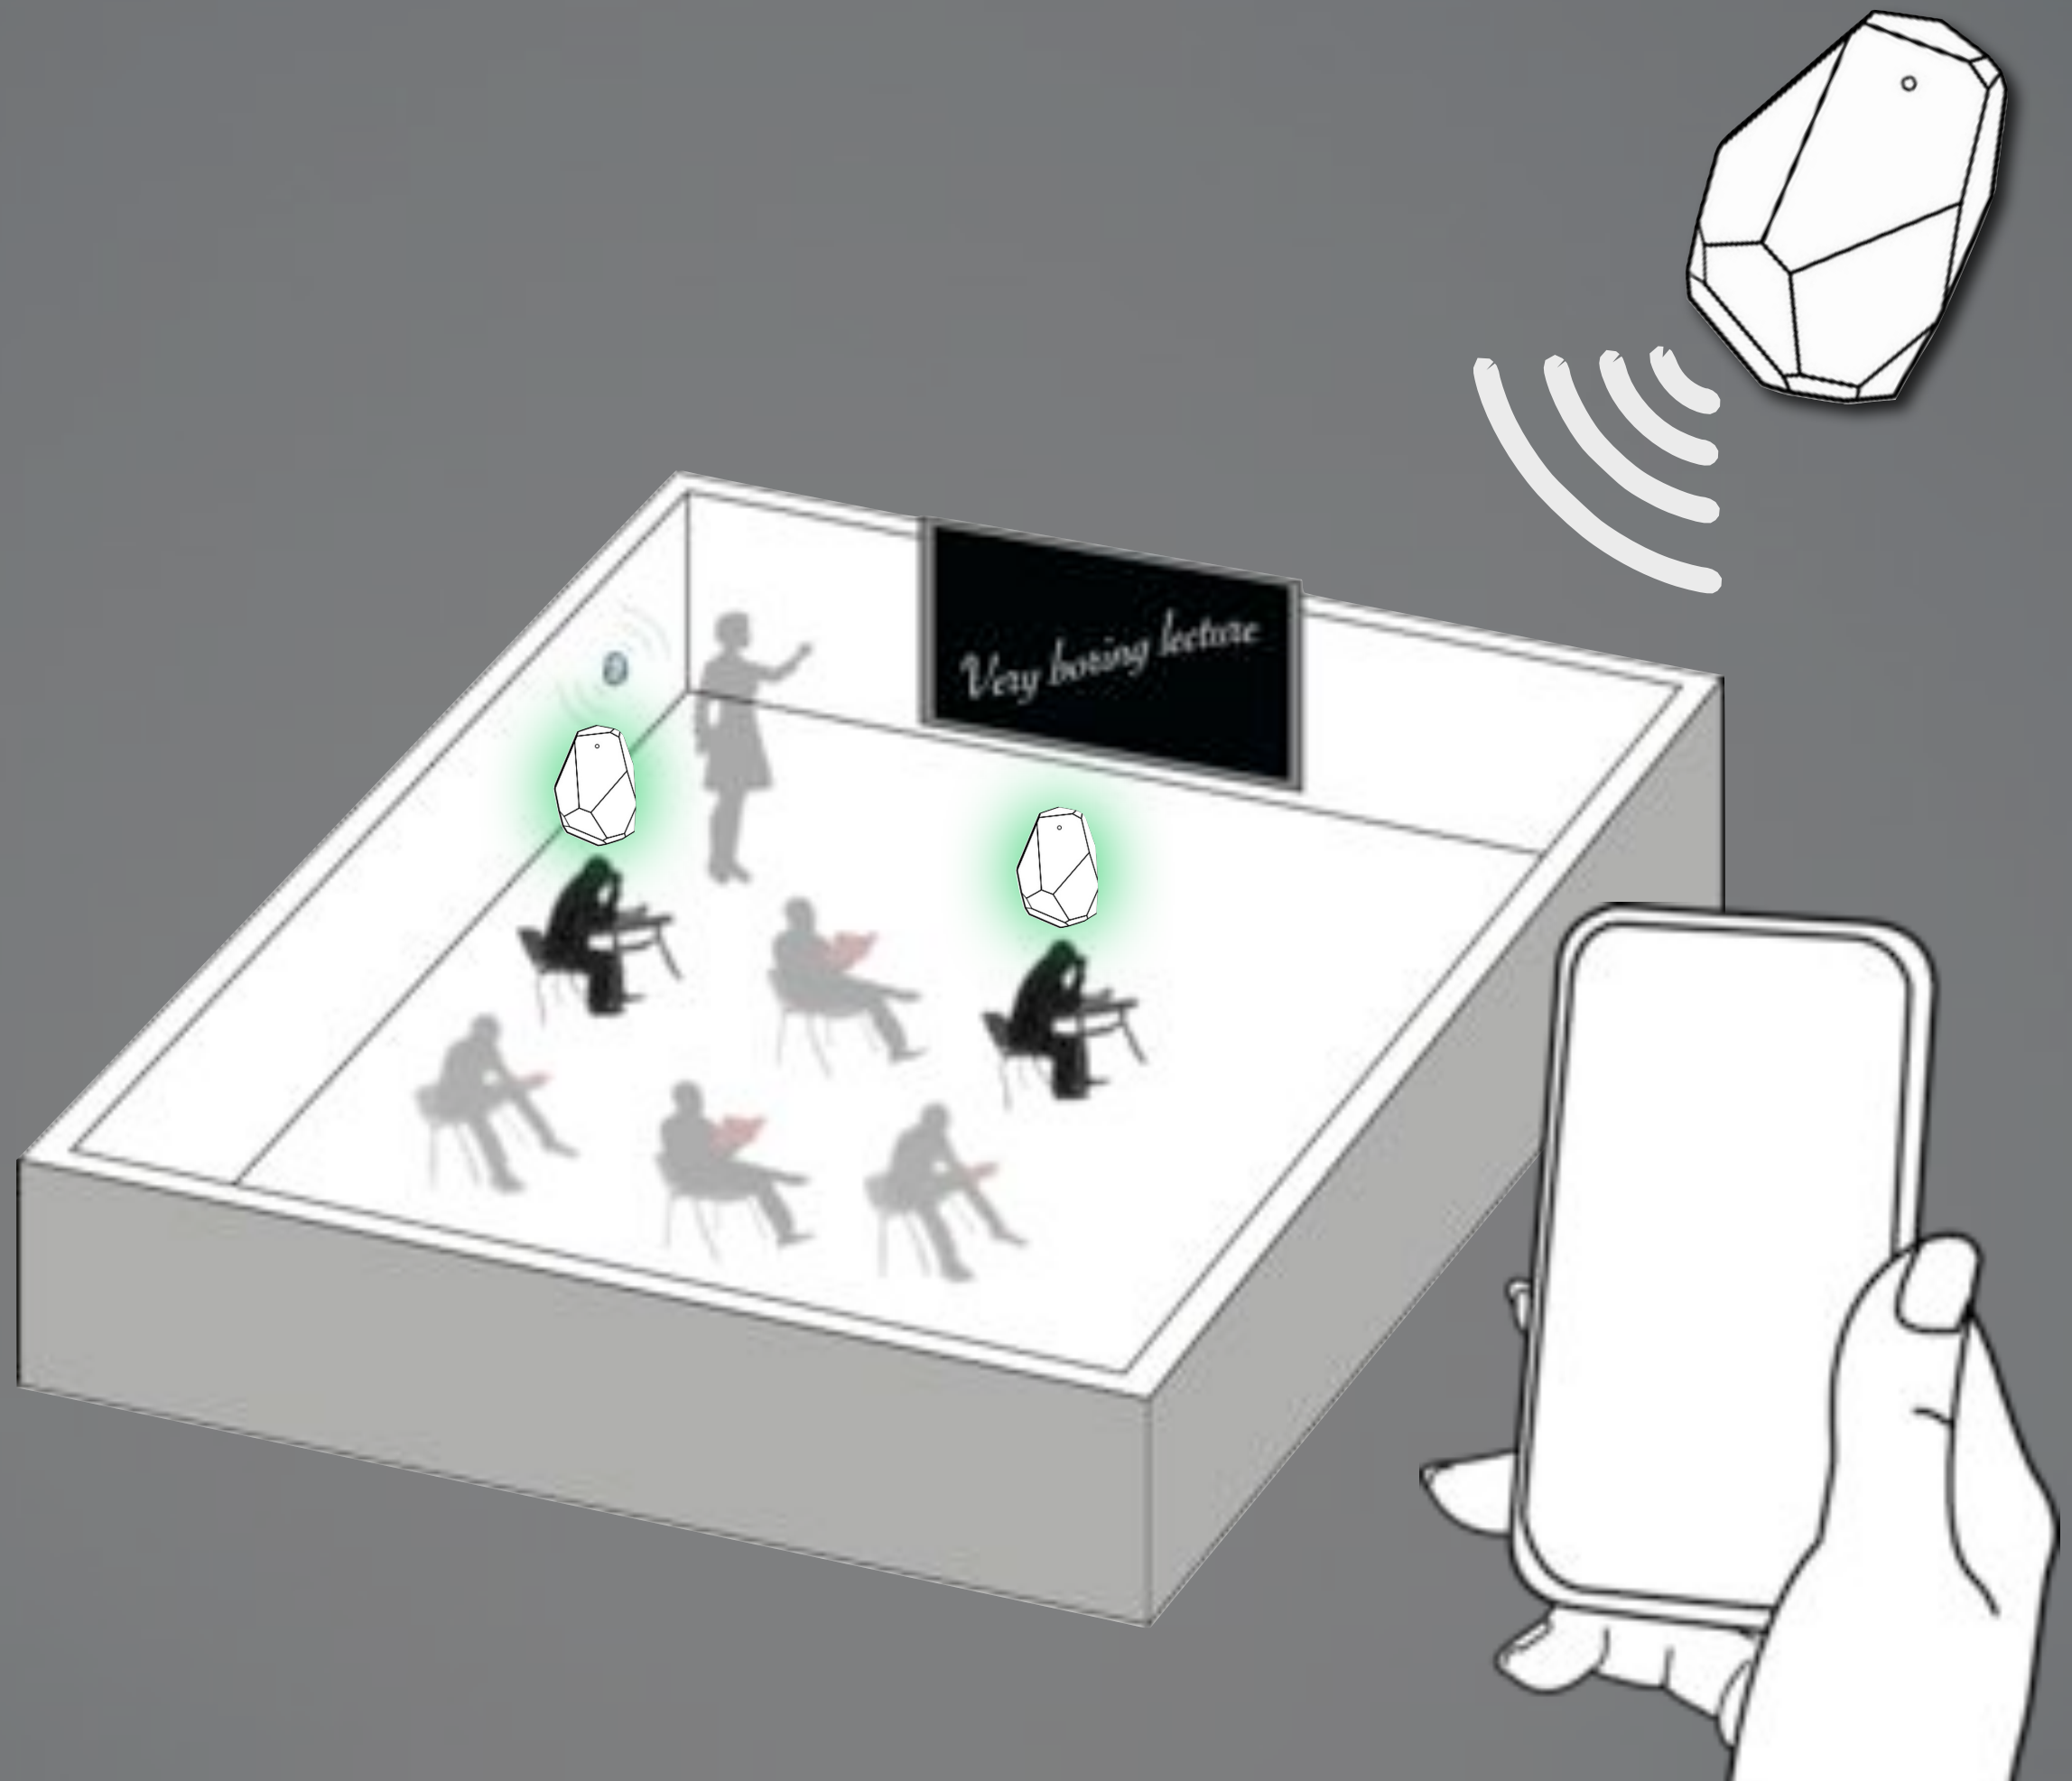

I wonder who else is bored...

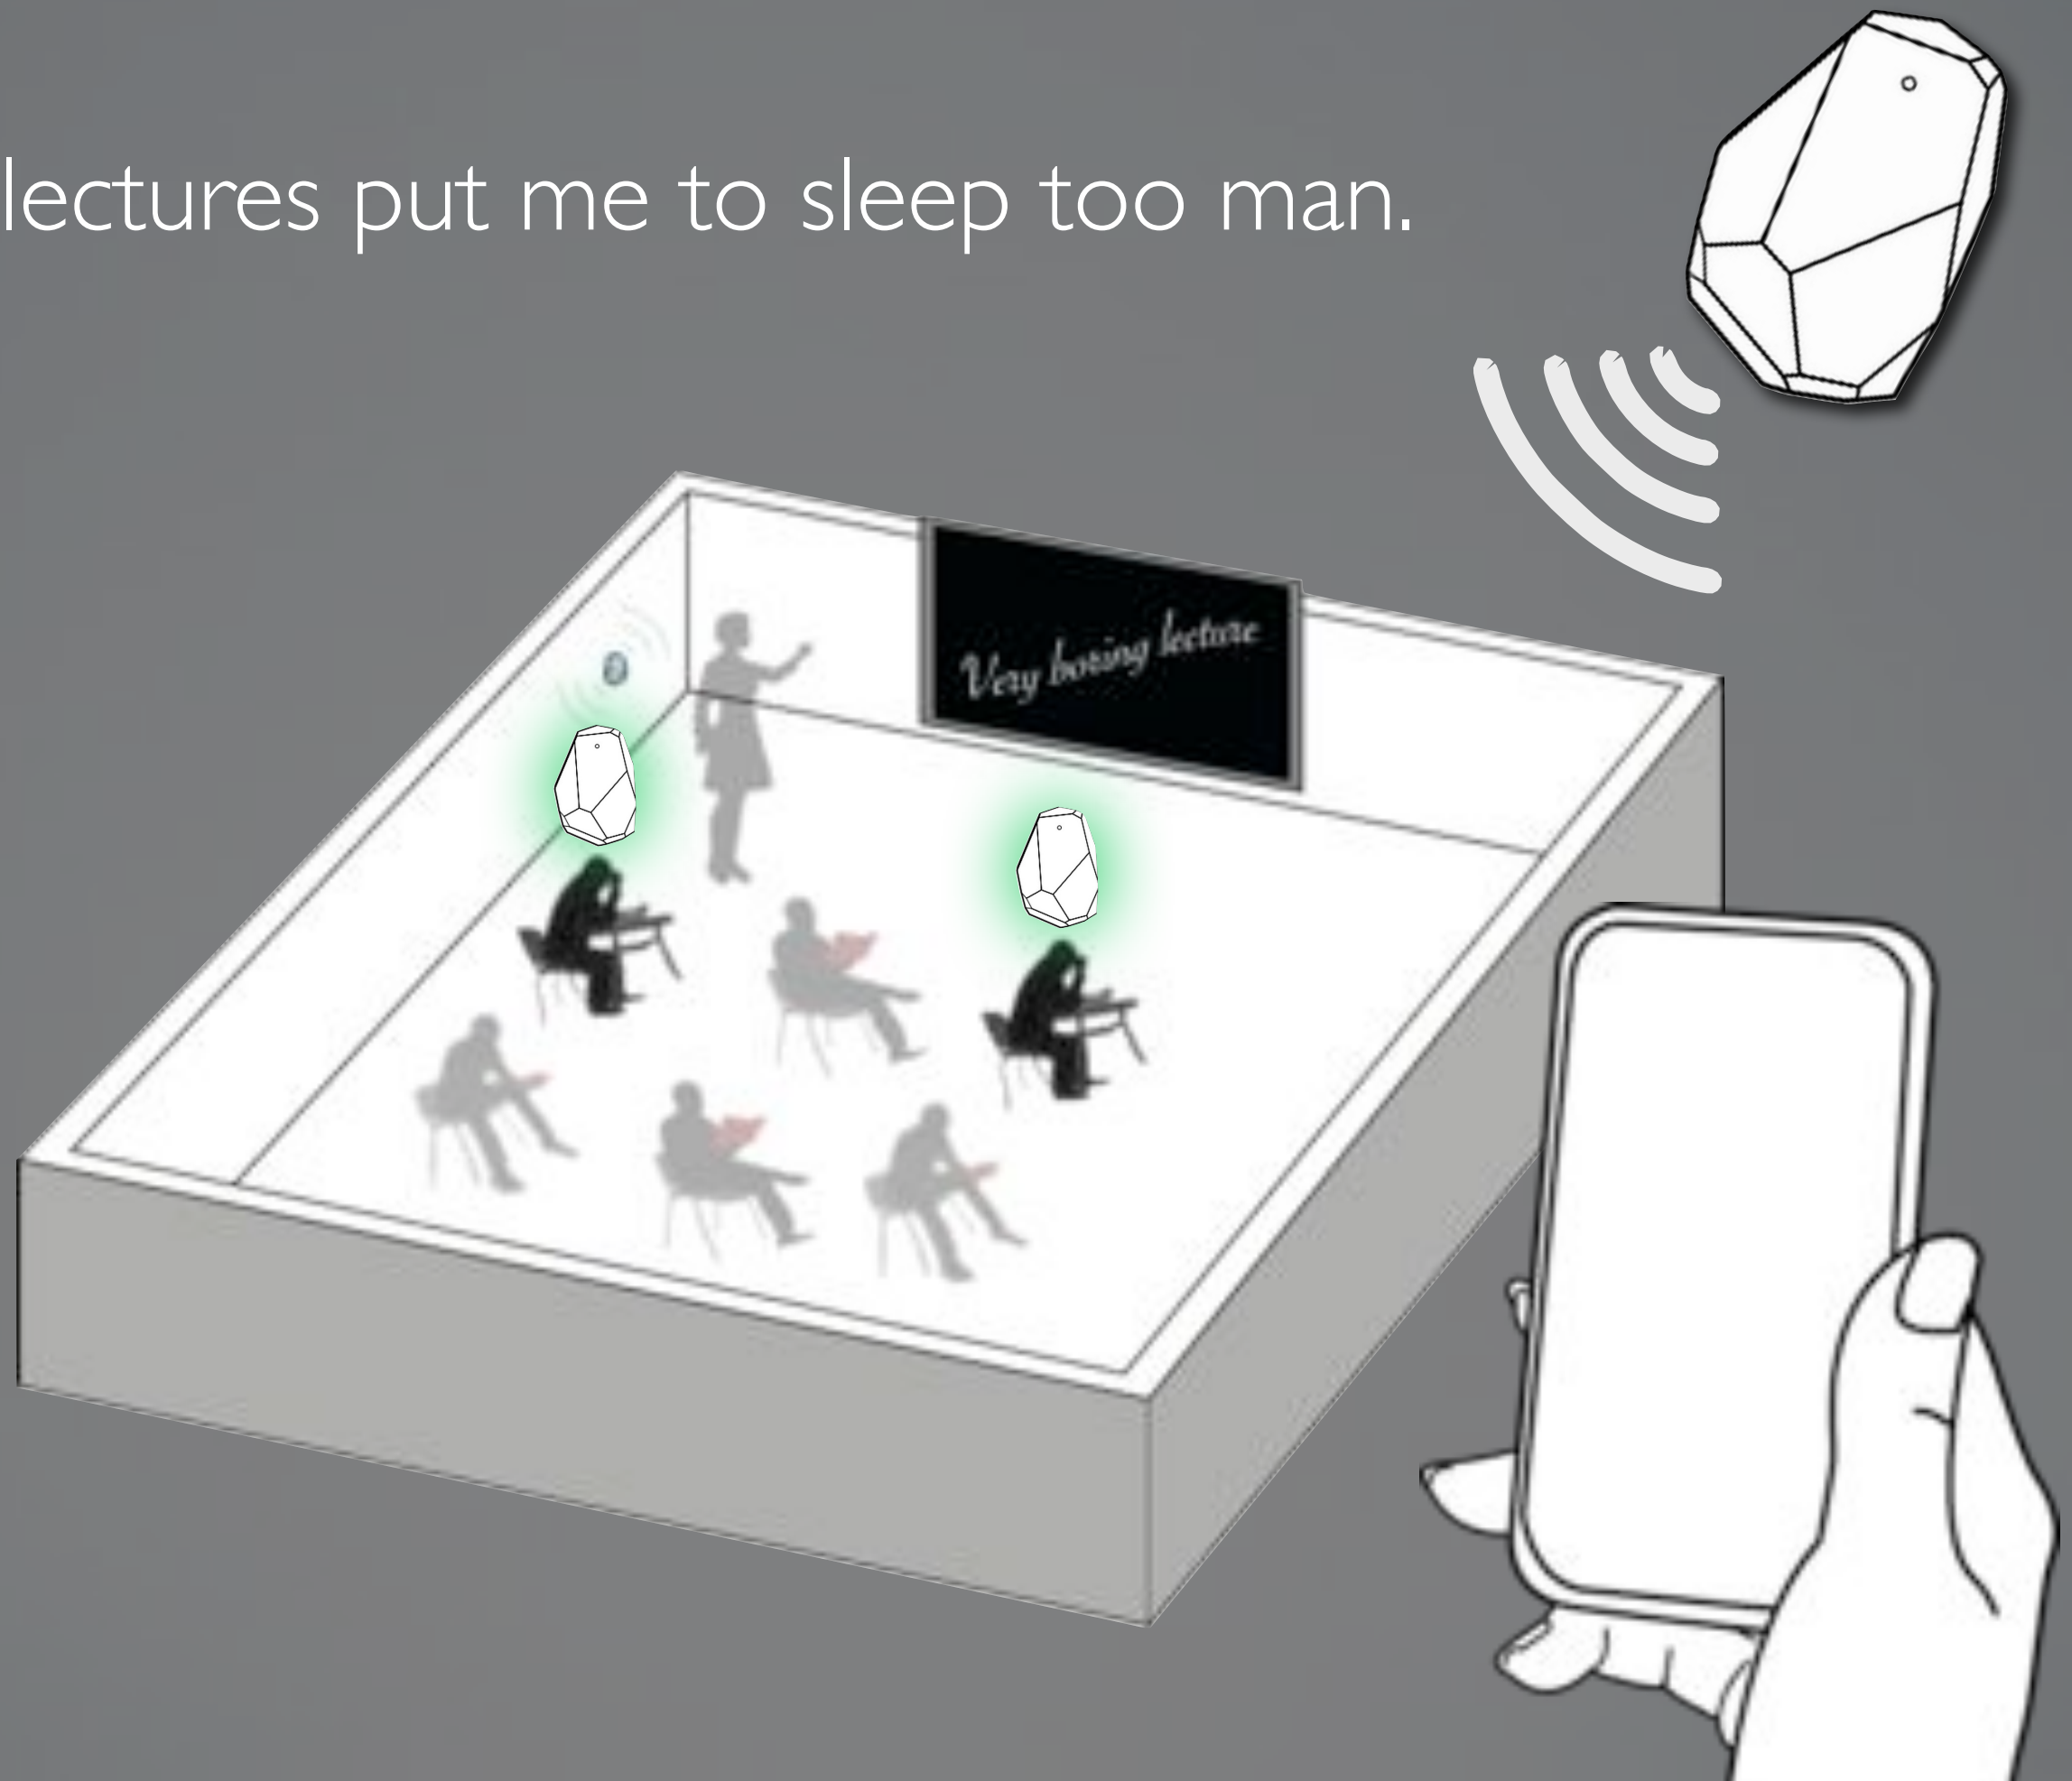

Anyone wanna kill time chatting?

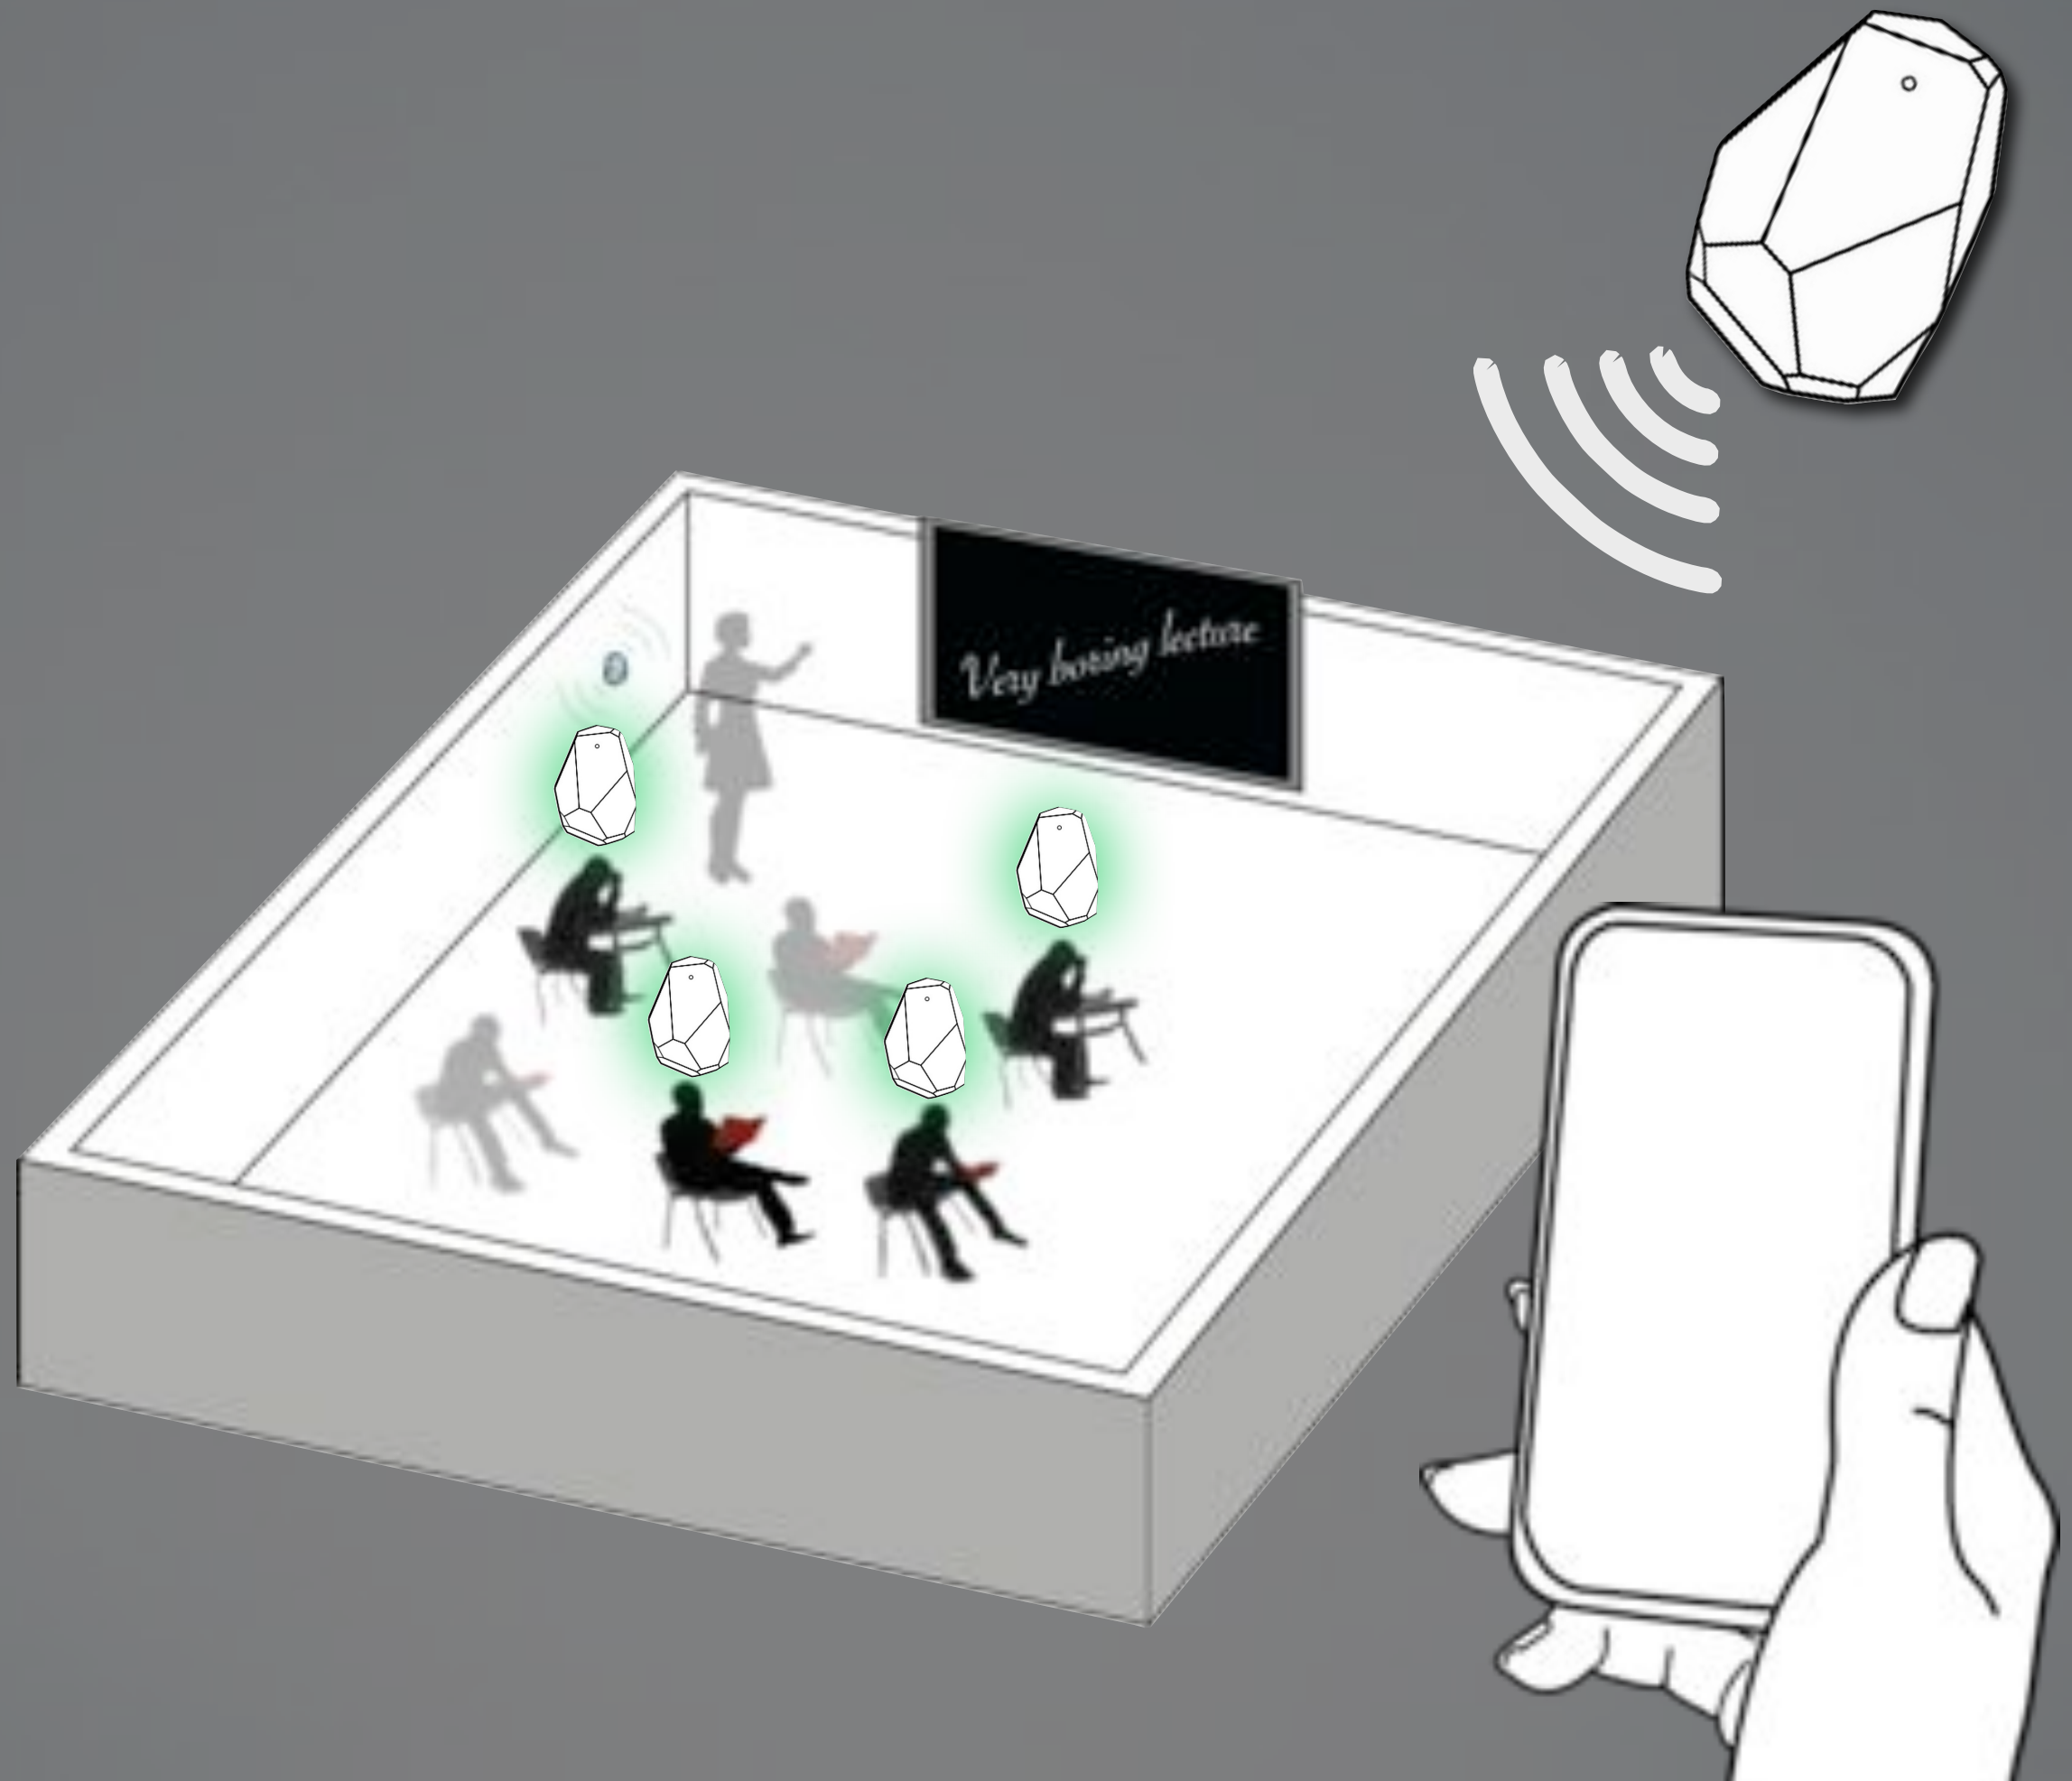

HCI lectures put me to sleep too man.

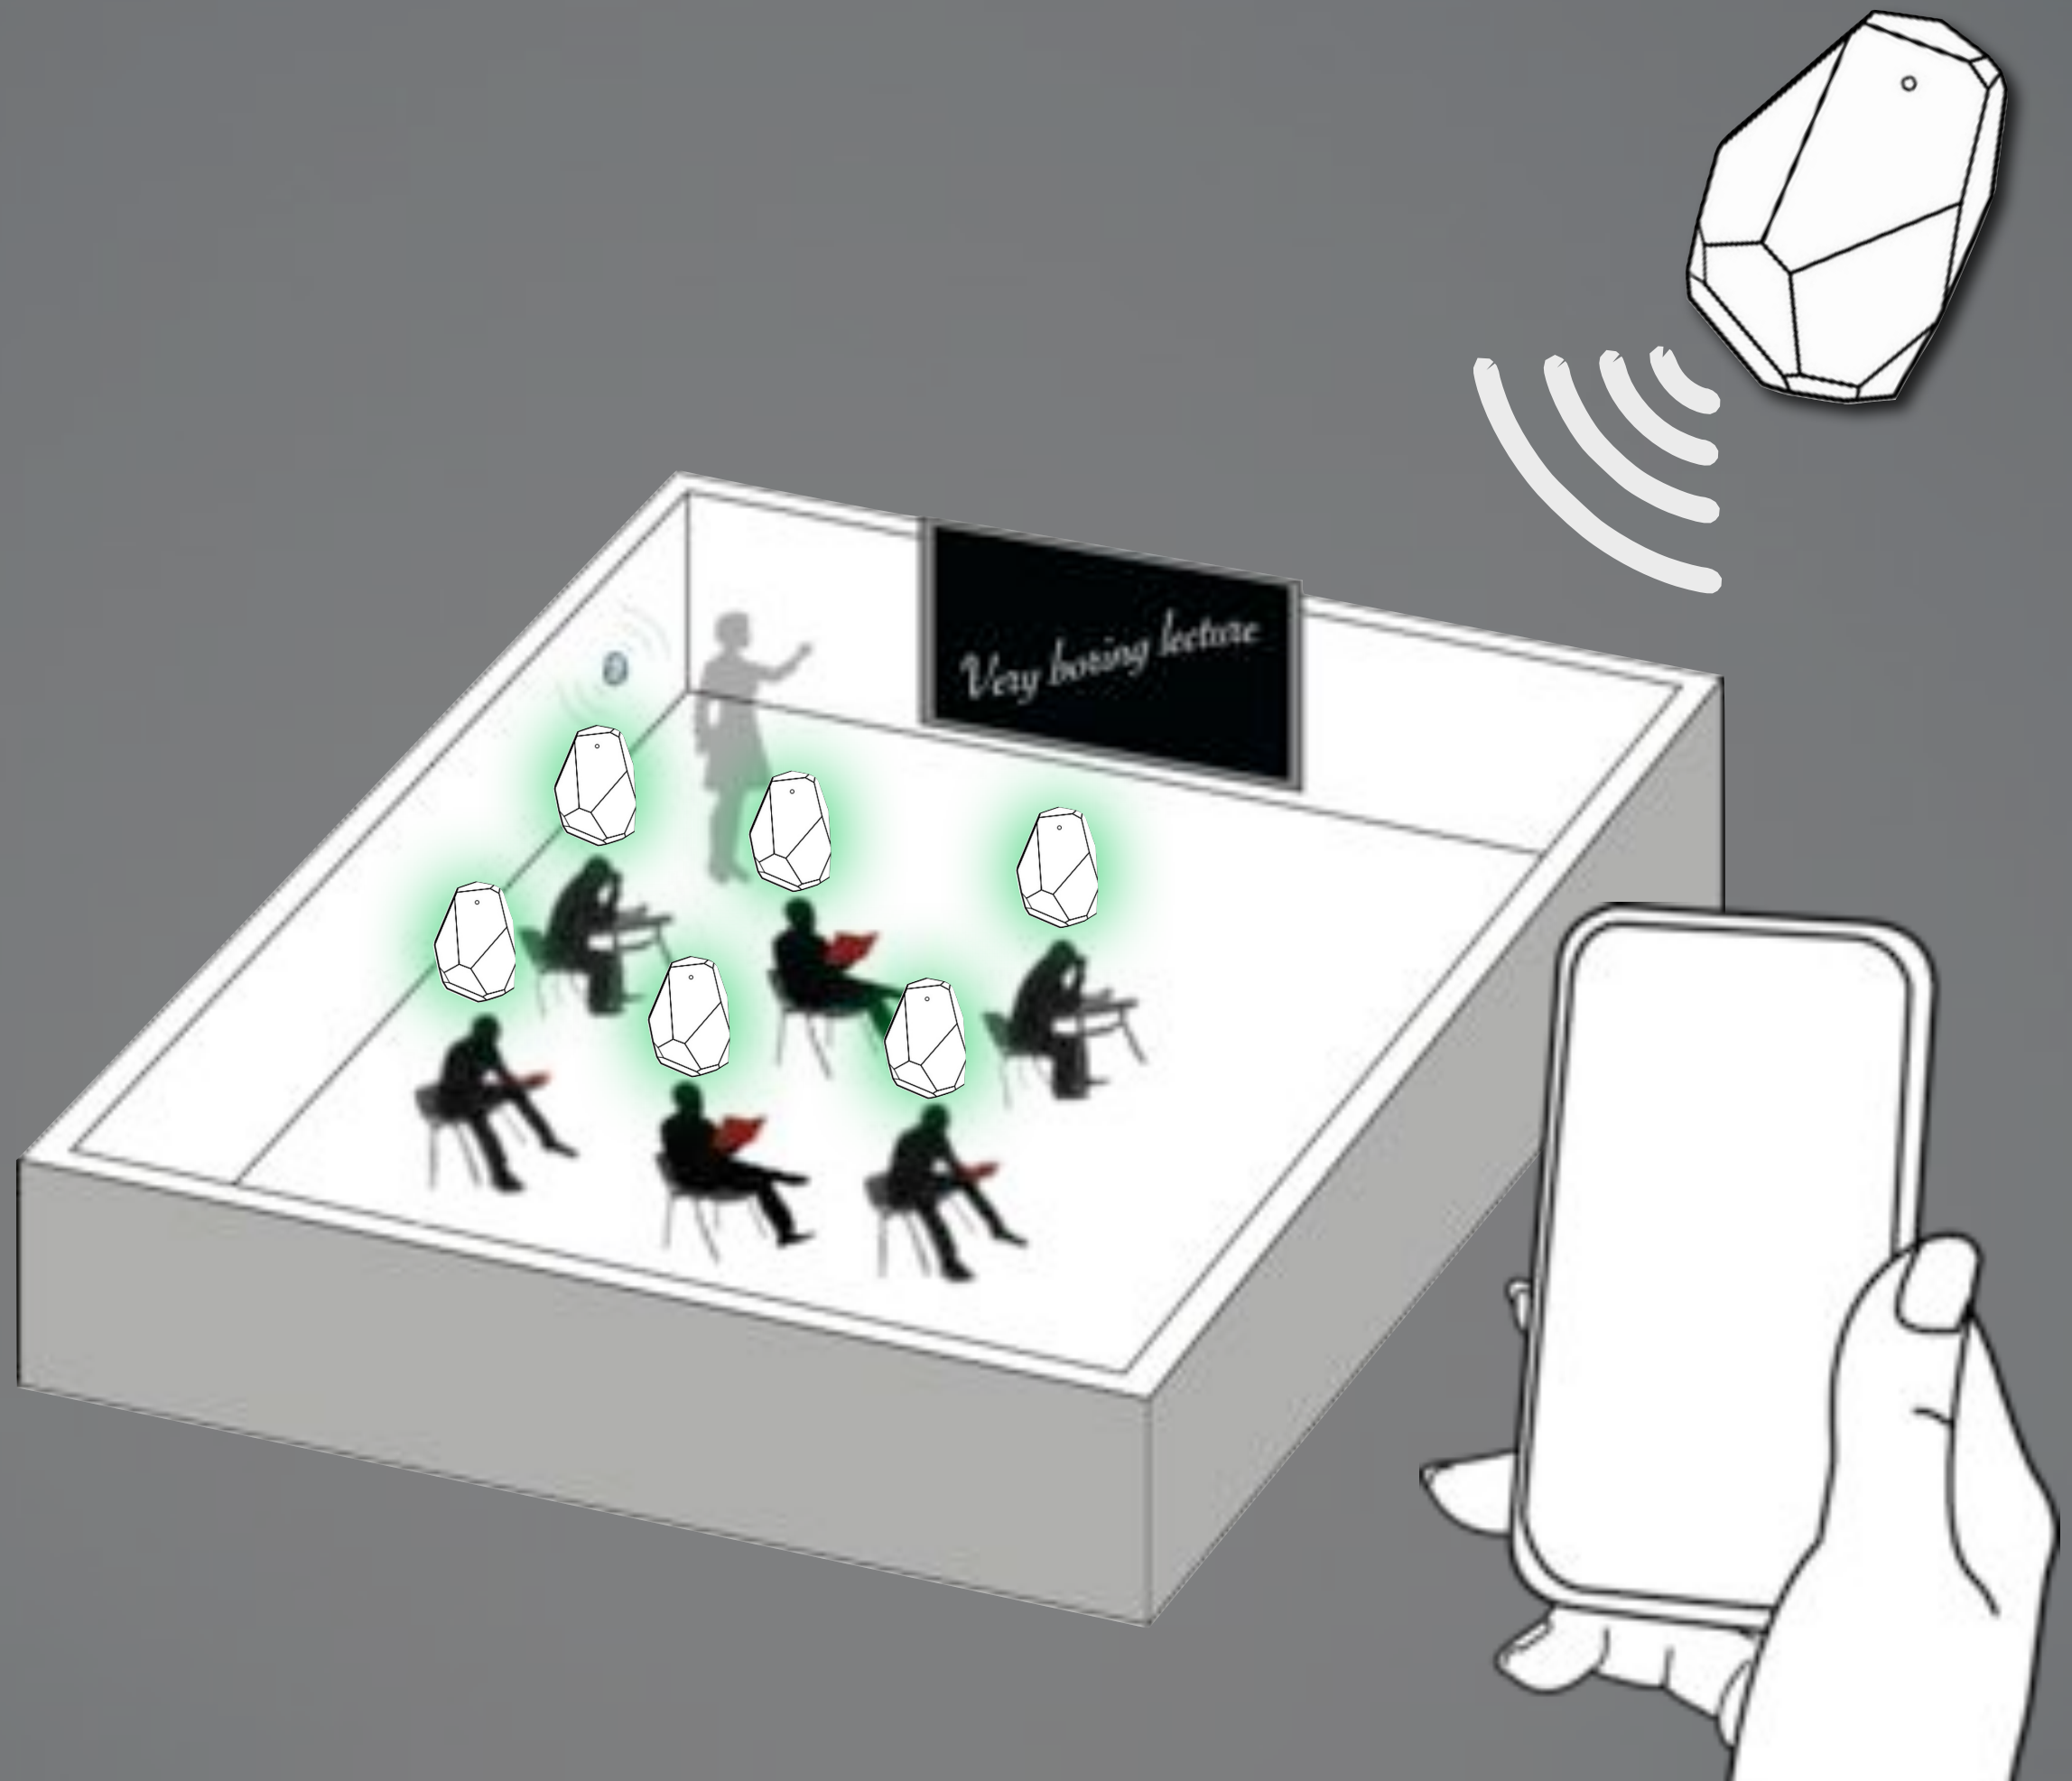

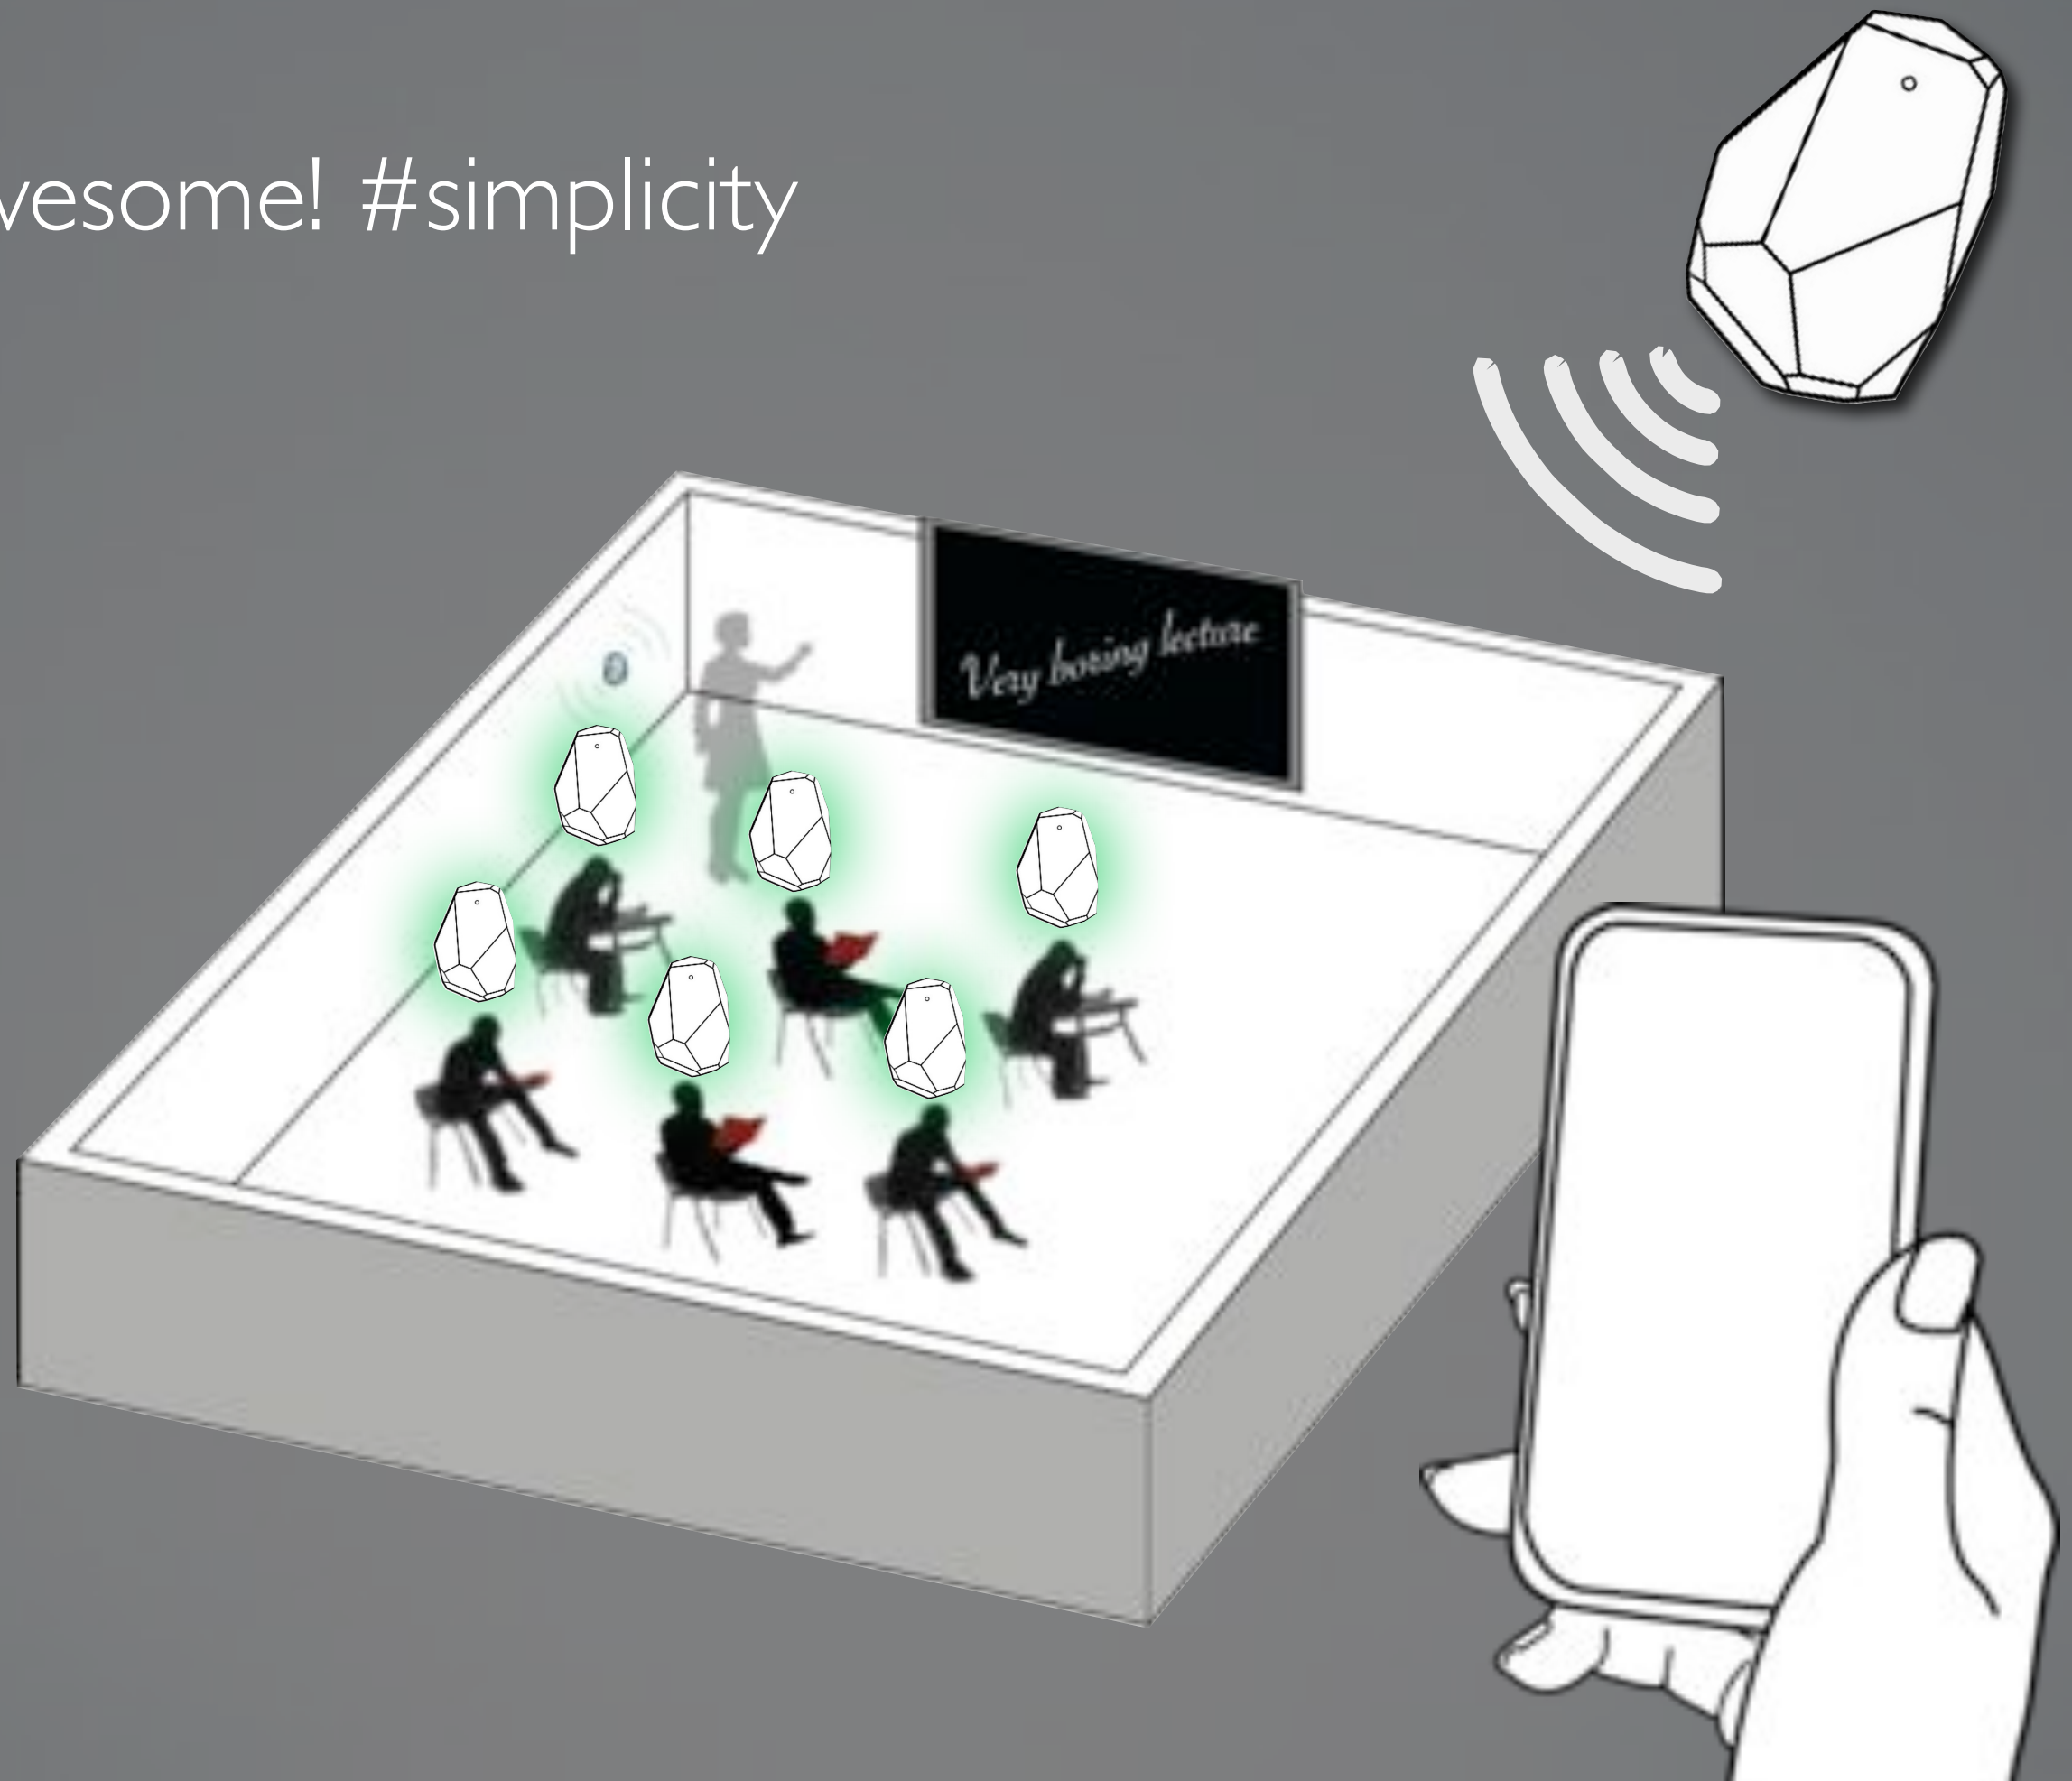

This baecon app is kinda cool, no hassle of setting up the group chat and adding all yours!

It's awesome! #simplicity

Asking questions during lectures.

Admiring Eiffel tower together.

Clubbing—chatting.

Your beacon, your baecon.

The best part is once you register your beacon with a chat room, you just don't worry about it for couple years.
